

PEELING AROUND THE WORLD

IPS Global Education Day session

Prior to the Annual Meeting in San Diego, CA

February 15, 2018; 2 – 6 p.m.

San Diego Convention Center: Room 28 CDE

Featuring a stellar faculty from around the world, this 4-hour educational event focuses on the latest innovations and uses of superficial to deep chemical peels for therapeutic and aesthetic indications across all skin types.

Case presentations, technique tips and clinical trends highlight the scientific agenda:

- Overview of Superficial, Medium, Deep Peels
- Melasma Panel
- Acne Scar
 - ~ Chemabrasion
 - ~ Scarring treatment
 - ~ Acne Scars in Dark Skin
 - ~ Isotretinoin
- Sedation and Anesthesia for Medium and Deep Peels
- TCA and Croton Oil/Phenol Peels
 - ~ JS + TCA
 - ~ CO2 + TCA
 - ~ Hetter and Phenol/Croton Oil
- Managing Peel Complications
- Asian and Hispanic skin
 - ~ Superficial and Medium Peels
 - ~ Deep Peels
 - ~ Deep Peels/Cardiac: QT Interval, Carbon Mask
- Peels in Men
- Medical Uses for Chemical Peels

“By far the most valuable session I attended during the entire convention. I am excited for an encore event where I can interact with colleagues and learn more about best peeling practices of care worldwide.”

~ Dr. Kachiu Lee, USA
